Amendment # (for amendments only):

Part 3: Program-Specific Provisions and Assurances☒ I certify my acceptance of and compliance with all program-specific provisions and assurances listed below.

#	Provision/Assurance
1.	The applicant provides assurance that program funds will supplement (increase the level of service), and not supplant (replace) state mandates, State Board of Education rules, and activities previously conducted with state or local funds. The applicant provides assurance that state or local funds may not be decreased or diverted for other purposes merely because of the availability of these funds. The applicant provides assurance that program services and activities to be funded from this grant will be supplementary to existing services and activities and will not be used for any services or activities required by state law, State Board of Education rules, or local policy.
2.	The applicant provides assurance that the application does not contain any information that would be protected by the Family Educational Rights and Privacy Act (FERPA) from general release to the public.
3.	The applicant provides assurances that they will continue to meet all Statutory Requirements as outlined in their 2017–2018 Perkins Formula Grant incorporated by reference.
4.	The applicant assures that its ability is to meet the 20% match requirement.
5.	Applicants applying for Focus Area 1, 2, or 3 provide assurance that the curriculum they develop will be appropriately aligned to marketable skills in the identified high-demand occupations. It may include industry recognized credentialing as part of the degree plan.
6.	Applicants applying for Focus Area 1, 2, or 3 provide assurance that the development and implementation of industry experiences, including mentorship programs, internships, externships, and/or apprenticeship, will expose students to applied learning and real-world work activities in the identified high-demand occupation(s).
7.	Applicants applying for Focus Area 1, 2, or 3 provide assurance that, within 90 days of the grant start, awarded applicants will submit a Memorandum of Understanding (MOU) detailing the relationship between the dual credit partner, the LEA, and business and industry partner(s).

Schedule #4—Request for Amendment

County-district number or vendor ID: 043902

Amendment # (for amendments only):

Part 1: Submitting an Amendment

This schedule is used to amend a grant application that has been approved by TEA and issued a Notice of Grant Award (NOGA). **Do not submit this schedule with the original grant application.** Refer to the instructions to this schedule for information on what schedules must be submitted with an amendment.

An amendment may be submitted by mail *or* by fax. Do not submit the same amendment by both methods. Amendments submitted via email will not be accepted.

If the amendment is mailed, submit three copies of each schedule pertinent to the amendment to the following address: Document Control Center, Grants Administration Division, Texas Education Agency, 1701 N. Congress Ave., Austin, TX 78701-1494.

If the amendment is faxed, submit one copy of each schedule pertinent to the amendment to either of the following fax numbers: (512) 463-9811 or (512) 463-9564.

The last day to submit an amendment to TEA is listed on the [TEA Grant Opportunities](#) page. An amendment is effective on the day TEA receives it in substantially approvable form. All amendments are subject to review and approval by TEA.

Part 2: When an Amendment Is Required

For all grants, regardless of dollar amount, prior written approval is required to make certain changes to the application. Refer to the "When to Amend the Application" guidance posted in the Amendment Submission Guidance section of the Grants Administration Division [Administering a Grant](#) page to determine when an amendment is required for this grant. Use that guidance to complete Part 3 and Part 4 of this schedule.

Grant Request for Anna High School Health Science Pathway

This is Anna High School's third year to possess a Health Science program and in order to provide innovative practices and develop knowledge, skills, and abilities in this field of study, a grant to provide simulation lab products is essential in order to afford them. Anna High School CTE staff desires to grow the Health Science program to satisfy the hopes and aspirations of our students. Our first year to affiliate a HOSA chapter (Health Occupations Students of America) was last year, and we had 42 students join. This is truly a manifestation of the dire need for the Health Science pathway programs in our area as our school only has about 900 students total. Many of our students aspire to become nurses, doctors, physical therapists, medical assistants, pharmacists, and other healthcare professionals. Our initial plan is to introduce a Medical Assistant and a Pharmacy Technician program next year. In subsequent years we hope to provide a program for Patient Care Technician, Emergency Medical Technician, Certified Nursing Assistant, and Phlebotomist program.

Anna High School has already started a partnership with Collin College to offer dual credit options in the Health Science Field. Currently, we offer dual credit Medical Terminology, Introduction to Health Informatics, Sports Medicine, and have offered college articulation for Principles of Health Science. Anna ISD would also like to offer a gateway to an Associate of Applied Science program for the Health Science cluster as well. We are well on our way to a rigorous and competitive Health Science program. Acquiring simulation equipment will augment our program to stay abreast with other larger programs in our area.

Our Health Science program would like to purchase two Laerdal brand "Nursing Anne" simulation manikins, which cost a total of \$38,234. With these manikins all levels of Health Science, which includes about 150 students, can benefit from realistic scenarios. Each class will have a manikin to student ratio of 1:15 and will rotate in groups to use them.

Another simulation item desired is a simulation ambulance. Many of my students want to be paramedics or EMTs. The cost for this item is \$30,499. While our school does not have an EMT program yet, that is on the plan for coming years. In the meantime I would like to start partnering with local paramedics to include a segment in my courses and articulate with Collin College in our area. I have already talked to our Fire Department in Anna, and they are on board to help out.

In conclusion, as a result of Anna High School's location and a saturated student market, I respectfully request a grant in the amount of \$38,234 for two simulation manikins. This is also to keep up with the other schools in Texas who are incorporating simulations in their curriculums. With these grants, Anna High School will excel in our Health Sciences programs.

Schedule #13—Needs Assessment

County-district number or vendor ID: 043902

Amendment # (for amendments only):

Part 1: Process Description. A needs assessment is a systematic process for identifying and prioritizing needs, with "need" defined as the difference between current achievement and desired outcome or required accomplishment. Describe your needs assessment process, including a description of how needs are prioritized. If this application is for a district level grant that will only serve specific campuses, list the name of the campus(es) to be served and why they were selected. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Until recently, one might consider Anna, Texas a rural farm community. We still have plenty of farms in the area, but have experienced an aggressively explosive population boom the last few years. According to the U.S. census, in 2000 the population of Anna was 1,225, in 2010 it was 8,249. The estimated population in 2016 was 11,940. Compounded by large company headquarters projected to open within an hour of Anna very soon, the population will continue to increase exponentially. With such rapid growth, and posed at least a twenty minute drive in all directions from hospitals, providing enriching clinical sites for our Health Science Practicum students presents a challenge. Add to this staffing, budget, and travel constraints, clinical time for our students also seems drought-like. This is not only a function of distance, but also being a new program, the clinical sites in our area are saturated by students from other larger high schools and nursing students from local colleges. Even our Northern neighbor Grayson College has expressed frustration because the local hospitals are limiting their clinical experiences. In order to provide real world, cutting edge, and enhanced opportunities, lifelike "Sims" labs are needed to excite and engage students in deeper learning.

Schedule #13—Needs Assessment (cont.)

County-district number or vendor ID: 043902

Amendment # (for amendments only):

Part 2: Alignment with Grant Goals and Objectives. List your top three to five needs, in rank order of assigned priority. Describe how those needs would be effectively addressed by implementation of this grant program. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

#	Identified Need	How Implemented Grant Program Would Address
1.	Clinical sites in our area are saturated by students from other larger high schools (McKinney ISD, Prosper ISD, Lovejoy ISD, and others) and nursing students from local colleges (Collin College and Grayson College)	This grant would allow our students to simulate the clinical environment on our local campus.
2.	To provide innovative practices and develop knowledge, skills, and abilities in this field of study.	A simulation lab would afford our students the opportunity to meet the need.
3.	Limited time for our practicum students in the clinical settings, as a result of the current budget and staffing capabilities.	The Sims lab equipment would supplement and enhance the program greatly.
4.	Provide a health science program that will continue to attract all students.	The Sims lab equipment will provide an opportunity for those that need hands on in the classroom setting, as well as those that cannot travel to the clinical sites.

Schedule #17—Responses to TEA Program Requirements

County-district number or vendor ID: 043902

Amendment # (for amendments only):

TEA Program Requirement 1: Explain how the project identified the high-demand occupations and their related programs of study in partnership with the local workforce development board. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Applicants applying for Focus Areas 1, 2, or 3 must address this question.

Our Health Science Pathway currently has ten members/organizations represented on our local CTE Advisory Committee. These members help our health science instructor with decision making on curriculum, equipment, industry trends, certifications, and licensures. According the top 25 occupations above the Texas median, registered nurses and licensed practical and vocational nurses are ranked number one and twelve respectively.

We also, utilize Interlink to provide regional high demand occupations. According to Interlink, the following Health Science careers will be in high demand: Licensed Practical and Vocational Nurses, Medical Assistants, Home Health Aides, Medical and Clinical Health Technologists, Diagnostic Medical Sonographers, Family and General Practitioners, Medical Records/Health Information Technicians, Nurse Practitioners, and Nursing Assistants (CNA). This information is for the North Central Texas Region, in which, Anna is located.

This information validates the current and future direction of our Health Science Pathways.

Schedule #17—Responses to TEA Program Requirements

County-district number or vendor ID: 043902

Amendment # (for amendments only):

TEA Program Requirement 2: Describe how you will design at least one program of study that spans secondary and postsecondary education and includes an appropriate sequence of courses that are aligned with high-demand occupations identified by local regional workforce board. The program of study should build in rigor as students progress through high school. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Applicants applying for Focus Areas 1, 2, or 3 must address this question.

As stated earlier, Anna High School (AHS) has already started a partnership with Collin College to offer dual credit options in the Health Science Field. We offer dual credit Medical Terminology, Introduction to Health Informatics, Sports Medicine, and have offered college articulation for Principles of Health Science. Anna ISD would also like to offer a gateway to an Associate of Applied Science program for the Health Science cluster as well. We are well on our way to a rigorous and competitive Health Science program.

By the end of the grant period, we will have approximately 8-10, which would indicate the growth and sustainability of the pathway. We are confident that health science will continue to expand, lending to more opportunities for our students in this pathway. Please see below for a sustainability plan.

- Year one
 - Request 2 manikins.
 - Market the health science pathway through HOSA.
- Year two
 - Request 3-4 manikins based on program growth.
 - Market the health science pathway through HOSA, announcements, and social media.
- Year three
 - Request 3-4 manikins based on program growth.
 - Market the health science pathway through HOSA, announcements, and social media.
- Year four and beyond
 - Market the health science pathway through HOSA, announcements, and social media.

As the third year of Health Science begins at Anna High School, the practicum students will spend only first period of school at local dentist offices, physician offices, a rehabilitation facility, and one department, the ER of a local hospital. They have limited time in the clinical settings as a result of the budget and staffing issues, therefore the Sims lab equipment would supplement and enhance the program greatly. Student outcomes will be greatly improved as a result of the real world lifelike experiences provided by the simulations. The students will acquire academic and technical knowledge, and hands-on skills as a result of the simulations. The simulation labs will propel Anna High School students in the Healthcare industry.
